2.2 Description of contents

This course seeks to enhance the students' communicative skills in academic settings not only in written contexts but also in the area of spoken English. Analysis of oral presentations and their structure will be the starting point. Afterwards written texts will be broken down to examine their structure, their type and their cohesive and coherent devices. In addition, various grammar themes will be looked into with the objective of polishing the students' academic discourse. At the end of the course learners will have improved their general speaking and writing skills in English, and developed strategies to plan and organize their academic writing as well as to deliver their academic oral presentations with audio-visual help.

2.5 Teaching methodologies

An active didactic methodology in which the student is the protagonist of their own learning process, and the teacher an expert in the field. The teacher will possess the knowledge of the materials and resources necessary to help the student in the learning process and to optimise their learning strategies. Through interaction and mutual co-operation, the student will achieve the competencies that they can then incorporate within their professional profile.

The teaching methodology will combine real-life and online teaching in the semi-present mode and online teaching in the online mode. This is therefore a mixed methodology that will be supported by the use of ICT as well as collaborative work (forums, chats, video-conferences) in accordance with the teacher's tools (agenda, announcements, files of materials, and links). For this purpose, the Virtual

Campus will be used with the Blackboard Ultra platform. This interactive methodology requires the systematic and continuous active participation of the students and teachers.

3. System of Evaluation

3.1. Grading

The grading system (R.D. 1125/2003, of 5th September) will be as follows:

Writing standards

Special attention will be paid in the papers, practices and written projects, as well as in the exams, to both the presentation and the content, taking care of the grammatical and spelling aspects. Failure to meet the minimum acceptable standards may result in points being deducted in such work.

3.4. Warning about plagiarism

The Universidad Antonio de Nebrija will not tolerate plagiarism or copying under any circumstances. It will be considered plagiarism the reproduction of paragraphs from texts other than the student's audit (Internet, books, articles, papers of colleagues...), when the original source is not cited. The use of quotations cannot be indiscriminate. Plagiarism is a crime.

If this type of practice is detected, it will be considered a Serious Misconduct and the sanction foreseen in the Student Regulations may be applied.
