# Residencias Nebrija

Residencias Nebrija is an educational institution in which you will find a space for coexistence that encourages social and cultural life as a complement to academic training. We have a clear goal: creating the best experience for you.

Our residences are located in the city center, from where you can easily access the university or study center, and you will have all the necessary means of transportation and services at your disposal.

## Our essentials

### Study environment

We design spaces in order to achieve the best study environment in a quiet setting.

Thanks to the mentoring programs, conferences and workshops, you can comfortably access education that will complement your studies without leaving the residence.
